Double PoE Cabling Distance *up to 200 Meters!*

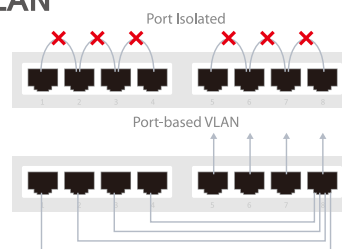

Flexible PoE Deployment

Features IEEE 802.3at Power over Ethernet (PoE+) port supplies up to 30 watts of electricity for quick and easy deployment of PoE-enabled devices, saving further by reducing installation and deployment cost of power cable.

Innovative Port-Based VLAN

Features port-based VLAN, ports isolated from each other via DIP switches to prevent IP camera's multicast or broadcast storms.

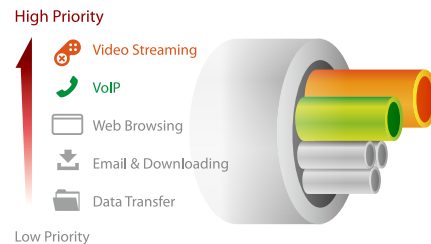

Fan-Less Quiet Design

A fan-less design ensures quiet operation and enables an even more flexible and compact design.

Easy Hardware QoS

Supports 802.1p QoS via DIP switch that ensures top priority for video and voice traffic.
