

# Better Technology. Smarter Life.

## Smart Life Has Arrived.

A new vision of smart home technology where people are connected to the things they use every day. Unlock possibilities for connected environments with intelligent control over electronics. Create dynamic, connected environments of the future that work better for modern lifestyles. Smart Life products work seamlessly together to transform homes one step at a time.

## Intelligent & Secure

Smart Life products are intelligent and intuitive. Control electrical appliances from your smartphone and set up scheduling for things you use regularly. Use motion-detection network cameras to trigger the lights or TV to come on when you enter a room. Your home can develop a life of its own. With Edimax network cameras watching 24 hours a day, you can be assured that everything is always safe and sound.

## Network Cameras

Security and connectivity for your home. Packed with premium features, our range of network cameras provide reliable, high-quality surveillance. Check up on kids, family or pets from anywhere in the world for reassurance and peace of mind. Audio and motion detection functions can also trigger smart plug actions, opening a whole new world of possibilities to build smart, secure homes.

## Remote & Helpful

Check and control your Smart Life products from anywhere using Edimax's user friendly smartphone app, so no matter where you are, you're always connected to your home. Schedule or trigger almost anything you want and make life more comfortable. Designed to be extra helpful with energy usage metrics and smartphone or email notifications.

## Smart Plugs

Control, schedule and monitor electrical appliances around your home for better comfort and efficiency. Track power usage, cut electricity costs and set intelligent schedules to keep your day-to-day life running smoothly, as well as switch appliances on/off remotely with the free iOS & Android smartphone app. Never worry about leaving something on again.

# 2015 Smart Life Solution Guide

Smart Life, Your Life

# Edimax Smart Life

Homes That Work for You.

## Peace of mind.

### Outdoor Wi-Fi Security System

Leave your home in safe hands with our innovative Wi-Fi home security system. The outdoor camera can be positioned anywhere you need and links back to an indoor Wi-Fi unit. Check in from your smartphone anytime you need.

### PIR Motion Detection

Our motion detection uses passive infrared (PIR) sensors, so nothing will ever sneak by. Snapshots or video footage can be triggered automatically and emailed to you or saved to SD card or FTP.

Wake up

7:00

Leave home

8:00

Work

9:00

10:00

Lunch time

12:00

14:00

Tea break

Back home

18:00

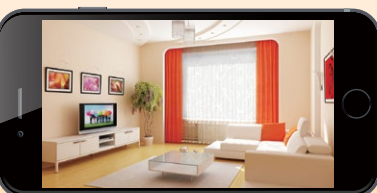

Bed time

22:00

Start every day the smart way.

### Smart Schedules

Set custom schedules for your appliances to suit your routine. Have your coffee ready when you wake up.

## Leave something on at home?

### Remote Control & Monitoring Apps

No problem. Switch it off from your smartphone with our iOS & Android apps. And check in on your pets or even answer your door when you get a notification that someone's there.

## Keep in touch.

### Home away from home.

#### Two-Way Audio

Don't just see what's going on in your home, hear it and communicate back if you need.

#### Acoustic Echo Cancellation

Crisp and clear sound using communications industry standard echo cancelling technology usually found in telephony and VoIP systems. Sound quality issues and interruptions aren't an issue.

For green & energy efficient homes.

### Power Management

Energy usage is tracked by smart plug power meters. Check the metrics on the EdiPlug app and learn about electricity consumption patterns in your home. Save money and lead a more energy-efficient life.

## Keep an eye on things.

### Video Alerts

Keep informed about what's going on. Audio or motion detection works with email and push notifications, so you know when something happens. Even get a video clip to see for yourself.

## Cameras with sense.

### Temperature & Humidity Alerts

Network camera temperature and humidity sensors provide live monitoring and pre-set levels can trigger alerts. When the temperature or humidity is too high or too low, get push notifications and emails.

## Call it a day. Your smart home is waiting.

### Smart Rules

Make your home work better. Control & schedule electric appliances remotely. Set your heater or air conditioners to come on before you get home or switch the lights on before you arrive.

## Smart for your family.

### Lullabies & Music

Use your network camera to soothe your child to sleep. Play a built-in lullaby or upload something else and use the camera's music player. Songs, stories or mom's voice can be played through the camera's speakers with remote control from your smartphone.

## Network Camera

IC-9110W
