

EDIMAX Pro

Robust Industrial Managed Switch

Durable, Reliable, Flexible & Smart Network
for Harsh Environments

IEC Certified

- Vibration
- Shock
- Free Fall
- EMC & EMS

IGS-5416P/IGS-5408P/IGS-5208

Durable Performance Network that You Can Rely on

Certified Ruggedized Design

Equipped with anti-dust IP30-rated aluminum alloy case, the switch is designed and certified to withstand a high degree of vibration, shock, free-fall protection and against ESD/EMI surge for harsh environments.

High/Low Temp. Resistance

The industrial switch operates with a wide temperature range from -40°C to 75°C (-40°F to 167°F) for industrial and outdoor network deployment with capability of withstanding the extreme hot and freezing environments.

Reliable Dual Redundancy

Supports network redundancy with RSTP, MSTP, ERPS, LACP and power redundancy with two power inputs to ease the unexpected risk and ensure stable and reliable network service quality.

PoE PD Alive Check

PoE Powered Device (PD) alive check to monitor real-time status of connect-
ed PDs and enable to reboot
fail PDs to enhance the
reliability of the network.

USB Console Port

Designed with the USB
console port for convenient
system backup, restoration
and upgrade to enhance
maintenance efficiency and
reduce system downtime.

Long Range Fiber

Featuring with dual-speed
fiber SFP slots, connects to
uplink to backbone core
switch and monitoring data
center in long distance
from 550M to 30KM.*

Smart & Secure

The industrial switch
features smart and simple
network monitoring tools
that allow for improved
network efficiency and
security.

*The maximum fiber optic cable distance is subject to the SFP transceiver specification.

OTHER FEATURES

- Supports Storm Control to suppress a packet storm in a network (Storm Protection).
- Features DHCP snooping to protect the integrity of legitimate DHCP server and its operations.
- Supports SNMP v3, Access Control List (ACL), QoS, CoS, STP, 802.1Q VLAN, IPv4/IPv6, Port Trunk, IGMP v1/v2/v3 Snooping and Mirror.
- Fanless, compact size with DIN-Rail and wall-mounting enabled design.

Robust Industrial Managed Switch

Durable, Reliable, Flexible & Smart Network for Harsh Environments

Ideal solution for industrial networks such as automotive, factory automation, oil and gas, mining, military, transportation, substation, energy and outdoor applications of railways, roads, tunnels, smart cities, city surveillance and traffic monitoring.
