IC-3116W

720p Wireless H.264 Day & Night Network Camera

The Edimax IC-3116W 720p wireless network camera is a versatile monitoring device ideal for monitoring your home, shop or factory during the daytime or at night. With Edimax Plug-n-View technology, no complicated setup is required and you can easily connect the camera to the cloud and monitor remotely from a smartphone, tablet or laptop. Motion-triggered snapshots and recording to email ensure that you capture every criminal event. The IC-3116W comes with a wireless interface making installation easy for any home/store/factory monitoring applications.

Plug-n-View for 24/7 Easy Remote Monitoring

Edimax Plug-n-View technology makes it easy for you to keep your yard, garage, shop, factory or other assets wherever you go. With Plug-n-View technology, you can connect your network camera to the cloud in a few simple steps and access it remotely with a smartphone, tablet, or computer no matter where you are.

Night Vision

With a light sensor, image sensor, and IR LEDs, the IC-3116W can satisfy all security and indoor surveillance needs even in dimly lit environments. And with automatic ICR (IR Cut Filter Removal), infrared light is filtered out during the day time and allowed to pass during the night time, ensuring video color quality in comparison with other IP cameras.

IC-3116W

Motion-Triggered Snapshots & Recording

The powerful motion detection system built into this network camera ensures that you have evidence of a criminal event. You can pre-define an area in the monitored range for motion detection; and when motion is detected in the specified area, the network camera will produce snapshots or video footage of the event immediately.

High Quality Videos

The Edimax IC-3116W is built with a wide 2.2mm lens that covers a diagonal viewing angle of 69 degrees, making it suitable for capturing video footage of a wide area with a single network camera. With a megapixel CMOS sensor, this network camera is able to capture 720p (1280 x 720) videos at 24 frames per second.

SOFTWARE FEATURES

- Easy remote monitoring via iPhone, iPad, Android, PC & Mac
- High-speed H.264 & MJPEG video compression
- Motion detection
- Sends motion-detected snapshots to email and FTP
- Pre- & post-recording upon detected motion
- Viewer software to access 16 network cameras simultaneously
- Manual/scheduled/cycle recording

Anywhere & Anytime

Easy Setup - 3 Steps to View Your IC-3116W via Smartphone

- 1 Connect your IC-3116W to your local network.

- 2 Download the EdiLife app from the App Store or Google Play.

- 3 Pair the app with your camera and watch a live stream from anywhere!
