

Always Connected Wi-Fi for Everywhere

Gemini+ Whole Home Wi-Fi System

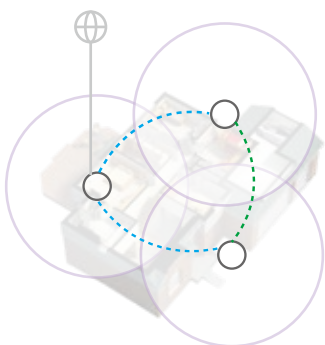

Gemini+ Whole Home Wi-Fi System is designed for a broad range of home environments and uses Mesh technology to reach every corner of your home with a fast and reliable Wi-Fi. It always connects your devices to the strongest Wi-Fi signal without buffering or losing connection and works with your existing modem and router to build a dead-zone free connection. Build a wonderful home Wi-Fi experience for you and your family with Edimax Gemini+ Whole Home Wi-Fi System.

- AC1200 Gigabit dual-band 3-pack Wi-Fi system
- Easily upgrade and extend high-speed Wi-Fi with coverage
- High-performance 11ac Wave 2 MU-MIMO and Beamforming supported
- Always connected with Mesh seamless Wi-Fi roaming
- Easy Plug-and-Play, Auto-Grouping Management
- Reliable Wi-Fi with auto optimizing dynamic path selection and self-healing
- Smart app setup and Wi-Fi management

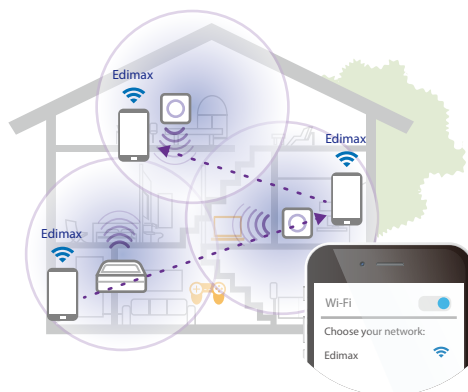

Seamless Wi-Fi Experience.

Gemini+ Whole Home Wi-Fi System with Mesh technology operates a single network (one SSID) that works to ensure a 100% seamless connection as you move throughout your home without the need to connect and login again.

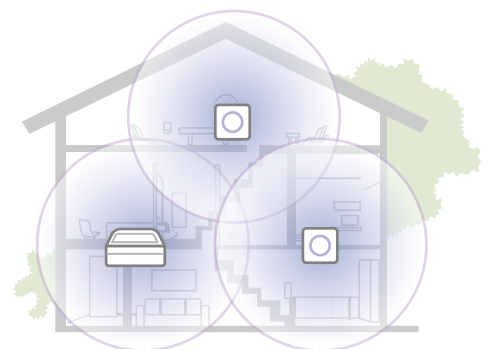

Mesh Ai

Single Network (SSID)

Builds a consistent Wi-Fi through your whole home

Self-Healing

Auto reconnects when one node shuts down

System-Optimizing

Finds the best Wi-Fi performance and path

Self-Optimizing

Node will find the best performance

System Load Balance

Builds a reliable whole home Wi-Fi coverage

Easy Wi-Fi Setup and Management that Matters

Simply download the Gemini+ App and follow the setup wizard, your whole home Wi-Fi is connected within minutes. Zero configuration with plug-and-play auto-grouping management, second and third Gemini+ devices will sync with auto-grouping to get even better whole-home Wi-Fi coverage, with no other settings required. The Gemini+ App is not only for easy setup but also for easy controlling and monitoring your whole home Wi-Fi.
