Industrial Specialized Dual PoE Power Budget

Durable & Reliable Connection for Surveillance and SMB Harsh Environments

To provide a stable PoE power supply and reliable network connection, the dual PoE power budget supply, enables the network administrator to adjust the PoE power supply with durability and longer product life cycle to work in the harsh environments.

Robust Industrial Managed Switch

Durable, Reliable, Flexible & Smart Network for Harsh Environments

Certified to withstand harsh environment and provides reliable network connection, the industrial switch is ideal for industrial networks such as automotive, factory automation, oil and gas, mining, military, transportation, substation, energy and outdoor applications of railways, roads, tunnels, smart cities, city surveillance and traffic monitoring.

Certified Ruggedized Design

High/Low Temperature Resistance

Reliable Dual Redundancy

Robust Industrial Unmanaged Switch

Durable, Reliable & Flexible Network for Harsh Environments

The EDIMAX Industrial DIN-Rail Unmanaged Switch comes with PoE+ Gigabit high-speed connections with IP30-rated, fanless rugged industrial design and rich features. The industrial switches offer easy efficient data transfer, plug-and-play, flexible-deployment, cost-effective, energy-efficient solution for various harsh industrial Networks.

Smartly and Powerfully Upgrade to 2.5GbE PoE++ Networks

For high-speed internet needs, explore Edimax's 2.5G switches. Upgrade to a 2.5GbE network seamlessly without rewiring. Edimax offers reliable L2 managed and web smart switches for stable high-speed data transmission. Designed for system integrators and installers, it supports 802.11bt PoE++ with each port delivering up to 90W power, simplifying installation while ensuring efficiency.

Elevate Your Connectivity with 5G/ 4G Mobile Wi-Fi CPE

Experience high-performance and robust mobile internet connectivity with Edimax's 5G/4G Mobile WiFi CPE solution. Say goodbye to traditional cable or DSL connections as you connect your devices to the web effortlessly. By harnessing the power of Qualcomm® 5G NR/4G LTE Solution, Edimax transforms 5G NR/4G LTE networks into private signals, offering you maximum flexibility, scalability, and security.

Superior High-Speed & Performance Wi-Fi System

AX1800 Wi-Fi 6, Pre-Configured Easy Setup, Expandable Wi-Fi

The PrimeAX 1-2-3 Wi-Fi system comes with the IEEE 802.11ax Wi-Fi 6 technology for wireless speeds up to 1800Mbps (574Mbps at 2.4GHz and 1201Mbps at 5GHz). Expect enterprise-grade performance and build quality, combined with user-friendly operation, easy deployment, super-fast wireless speed, an extensive feature set and a practical, ceiling-mount design make an ideal dual-band solution for enterprise environments.

The PrimeAX 1-2-3 2-pack kit equipped with pre-configured Master and Slave AX1800 APs achieves seamless Wi-Fi coverage and eliminates Wi-Fi dead zones. The built-in smart wizard makes network setup a breeze, you can easily configure and find your paired devices via the Device Discovery Tool which also includes security features (WPA/WPA2/WPA3 and more). What's more, the PrimeAX 1-2-3 featured AX technology such as BSS coloring, DL/UL OFDMA, DL/UL MU-MIMO, TWT (provides improvements in throughput), multi-device support, and Wi-Fi spectrum efficiency for streaming, gaming, media sharing, increases battery life efficiency for devices and reduce power consumption.

Ordering Information:

2-pack:

PrimeAX 1-2-3 (Master) &
PrimeAX 1-2-3 (Slave)

1-pack:

PrimeAX +1

Smart and Easy Setup!

- 1. Power on the PrimeAX 1-2-3 APs and connect the APs to the existing network switch. (APs can be powered on by PoE)
- 2. Access the Smart Wizard with a web browser. (Dedicated IP address listed on the label.)
- 3. Follow the Smart Wizard instructions to configure the Wi-Fi networks in just a few steps

Expandable Wi-Fi System

PrimeAX 1-2-3 includes 2 APs and is expandable with PrimeAX +1 Add-on AP, up to a total of 16 APs.

Smart, Secure and Self-Managed Wi-Fi

Easy, Complete, Expandable Office Wi-Fi System for Business and Home from Indoor to Outdoor

The Office 1-2-3 Office Wi-Fi System starter kit comes with three pre-configured access points that can communicate between themselves with self-managed functions for easy setup. The system is expandable with CAP1300 Office +1 (indoor ceiling-mount)/OAP1300 Office +1 (outdoor) Add-on AP, up to a total of 16 APs with zero configuration*. Built-in with the AP management software, no need for server or controller software and no extra license fee.

* Zero configuration: Once the Office 1-2-3 Master AP had been installed, the slave APs or add-on APs are automatically configured with master AP while connected to the existing network.

Easy Setup!

Get Your Office Wi-Fi Up and Running in Minutes!

1

Connect the Office 1-2-3 / Office +1 APs to the existing network via switch. (APs can be powered on by PoE)

2

Download the IP Finder utility and the system will find the Office 1-2-3 APs automatically.

3

Follow the wizard instructions of web- and icon-based UI and easily configure the Wi-Fi network in just a few steps.

Secured, Separated 3 Wi-Fi Networks

Expandable Indoor & Outdoor Wi-Fi System up to 16 APs

Choice of Wi-Fi Network Management

For Edimax Pro Series Access Points

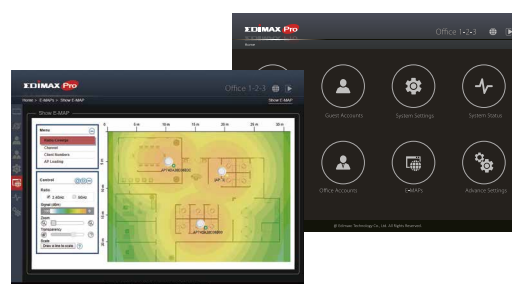

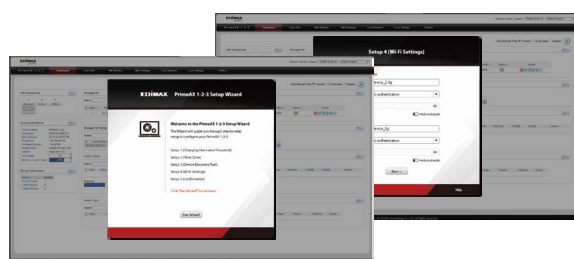

Edimax Pro NMS (Network Management Suite) is a web-based wireless network management system built-in Edimax Pro access point (CAX, CAP, WAP series and OPA1750) and AP Controller (APC500).

- **Expanded & Flexible Management:** Free, integrated controller software NMS for up to 8/16 (CAX/CAP/WAP series, OAP1750) or 200 (APC500) APs
- **Free of License Charge:** No additional AP license required
- **Multiple SSIDs:** Up to 32 SSIDs (16 x 2.4GHz & 16 x 5GHz) per access point
- **Zones Plan & Google Maps:** Intuitive indoor/outdoor AP management
- **Guest Captive Portal:** Customized login landing page
- **Guest Ticket:** Hotspot dynamic account to allow temporary Wi-Fi access
- **SMS Authentication:** SMS login (project base)
- **Built-in RADIUS (AAA):** Supports authentication up to 512 user accounts
- **Supported AP Models:** Edimax Pro CAX, CAP, WAP, OAP & IAP Series
